## Dona's Hues Product Glossary

**OPAQUE STAINS...**are self-sealing. Need not be sprayed unless you prefer to. They are especially formulated for drybrushing. Also used for basecoating and full coverage projects.

**ANTIQUES...**creamy concentrated translucent stains. May be mixed for new shades of your choice. Used for antiquing over basecoated pieces for drybrushing, or over full coverage stained pieces. Apply to a small area at a time and wipe excess with a soft lint-free cloth. Wash brushes with soap and water immediately after use.

## Dona's Hues...

### *The Preferred Choice of Ceramic Artists!*

A beautiful rainbow of **OPAQUE** stains especially formulated for drybrushing and stain projects, but perfect for any craft project where an acrylic paint can be used. Packaged in convenient squeeze bottles. No more spills, stuck lids or contaminated paint.

Our **ANTIQUES** are of an extra creamy consistency. Easy, smooth application, no drips or spills. Easy soap and water clean up. Packaged in 1 oz. Plastic jars.

An incomparable array of beautiful, unique **SPECIALTY PRODUCTS**, formulated for a variety of special effects and combination projects. Sizes vary with product type.

### **SPECIALTY PRODUCTS..**

Unique products for many varied purposes.....

*Pearlstone...*a clear pearl, may be applied solidly or drybrushed over any opaque color to give it a pearl sheen. It also can be sponged applied with a sea sponge for a satin fabric effect.

*Metallics...*Gold, Copper and Silver. These are especially formulated for easier drybrushing. Apply 2 coats solidly for full coverage.

*Glisten-Coat...*a brush-on gloss sealer to use on eyes and other accents to make them shiny.

*Snowfall...*a non-fired snow for use on stained projects. Very thick and must be stirred well before use. Can be swirled on with a brush and pulled slowly into icicles. Also can be used to apply texture to bisque before finishing.

*Wipe-Away Solvent...* this is used to wipe-back our antiquing products to provide highlights or to remove excess antiquing, making it easier to drybrush areas that are white or lightly colored.

*Multi-Media...*a fantastic product with endless uses. Use to stiffen fabric or lace to add accents to ceramic and craft projects. Brush or dip silk flowers and leaves for the look of porcelain. Can be tinted with opaques and applied to smooth ceramic or craft surfaces for raised decorations. Mix with crushed glass for accents in lighted pieces with cutouts (such as church windows). Mix with Sphagnum moss and Dusty Olive opaque to make a grass-like look on a base. Highlight with other shades of green when dry.
